

SHE day.....generating SPARCS

It's time we find the strongest voices in technology. SHE day is a young women (in high school) focused IT education event designed to give tomorrow's women in technology hands-on, fluff free insight on ideating, designing, and developing real world technologies. At SHE day, you'll develop your own idea and use real world prototyping tools to bring them to life. Within 7 hours, you'll be talkin' and walkin' tech and be one step closer to leaving your mark on tomorrow.

- WHEN:** Saturday, April 21, 2018 – 8:45am – 4pm
- WHERE:** Unisys Corporation, 3199 Pilot Knob Rd, Eagan, MN 55121
